Habitat Recording Fo	rm - Breeding Wader	s of English Uplan	d Farmland

Tetrad:	Date:	/	/2016	Visit:	

Please record coverage and habitat details for all 'in-bye' fields (labelled 1,2,3...), even if no waders were found, plus any optional additional fields (X1,X2...) or moorland areas (M1,M2...), if birds were present. **Tick** all items that apply to each field and enter percentage cover, if relevant, for columns shaded dark grey (see example row at top of table.)

), it birds were present. Her air items that apply to each field and enter percentage cover, it relevant, for columns shaded dark grey (see example row at top or table.)															$\widetilde{\hspace{1cm}}$
