Bird Recording Form - BWWM 2021

Surveyor name: _____

Site name:_____ Site number: _____ Visit:___

Date:___/___/2021 Start time:___:___ Finish time: ___:___

For each field covered (either fully or partially), please record all **Wader** species as well as **Yellow Wagtail** and **Meadow Pipit**, plus **duck species**, except Mallard. Make sure you record which fields you have covered on the Habitat Recording form. Counts should include feeding flocks and flying birds, either singing or displaying over fields (excluding high flying commuting birds), consisting of the following:

- Total adults = all adults seen or heard (displaying/singing) ***excluding mobile birds*** *already counted in other fields*.

- Total young = all chicks or juveniles seen (waders only).
- Young present (suspected, not seen) = indicated by adult behaviour and activity (e.g. threat display, agitated calling, etc) (waders only).
- Estimated pairs = best field estimate of the number of pairs, ***excluding mobile birds*** *already counted in other fields* and ***feeding flocks***, based on the number of: **i)** adults apparently holding territory (1 or 2 adults= 1 pair), **ii)** displaying/singing males (male=1 pair) or **iii)** active nests (nest = 1 pair).

Field no.	Species	Total Adults	Total Young	Young present	Est. pairs
14	*Curlew*	*2*	*1*	✓	*1*
14	*Yellow Wagtail*	*3*	*-*	*-*	*2*

Field no.	Species	Total Adults	Total Young	Young present	Est. pairs
