What the course will be about

This exciting course will teach you how to find birds' nests and monitor them for the BTO's Nest Record Scheme. Participants will be tutored in the field by experienced nest finders and shown how to locate nests in a variety of habitats while following the NRS Code of Conduct.

When

The course will begin with an online talk on Tuesday 10 May, 6pm to 6:35pm. Then there will be field sessions at the Nunnery on Friday 13th, 5:30pm to 8pm, Saturday 14th, 7am to 5:30pm and Sunday 15th, 7am to 5:30pm.

Where

The Nunnery is home to the BTO HQ and is located in Thetford, a small market town in the heart of the Brecks. The Nunnery grounds comprise the 12th Century covenant church and later buildings, surrounded by 160 acres of riparian habitat in the valleys of the rivers Thet and Little Ouse. The nest finding sessions will take place within the Nunnery grounds and Thetford Forest, where there is a variety of habitat types including mixed woodland, gorse scrub, reedbed and suburban. The indoor parts of the course will take place in the Nunnery buildings, which is where we will first meet on Friday.
