CODING OPTIONS

Data rows may use only the following categories. Suggested abbreviations for use in the field are shown in bold type. **Count** must be a single number (not a range) and can be preceded by 'c' (no space) to indicate uncertainty (eg 'c30').

species	scatter	activity	habitat	feeding location	food
<i>Main species:</i>					
B Blackbird	Nil	– not known	pg private gardens	ap amenity plantings wi woodland interior we woodland edge	ha hawthorn co cotoneaster ho holly iv ivy
